

NEW from motogadget: m.unit basic

Motogadget has phased out the m-Unit V2 and is replacing it with the m.unit basic. The m.unit basic is the same as the new m.unit blue without the Bluetooth capability.

All though the housing will say m.unit blue every housing with the **red** serial number sticker is an m.unit basic. You can differentiate the 2 m.unit versions in this way, **silver** serial sticker is the m.unit blue, **red** serial number sticker is the m.unit basic.

The mounting instructions will be the same for both m.unit versions.

With more functions and better hardware the m.unit basic will be an excellent replacement for the m-Unit V2.

The part number for the new m.unit basic is MG4002035.

MSRP is \$309.00

Available end of September/beginning October.

If you have any questions in regards to the new m-Unit Basic or m-Unit Blue, please do not hesitate to give us a call @ 937-291-1735.
